

Dear friends and neighbors,

The Mill Pond Acres Civic Association is considering the acquisition of land that is the extension of Red Mill Drive to where it ends at Red Mill Pond. Presently as you may be aware, there is no access to the pond for residents except to those who happen to live at the water's edge. Additionally, this is the only development on the pond that has no resident access to it. A ramp for boats and other water craft would be constructed on the site. Access to the pond would be for the exclusive use by MPACA residents.

There is a considerable amount of work involved in this project such as seeking your support, negotiating with the appropriate State and County officials, determining costs to the association, insurance, and other operational details.

Please bear in mind that as a resident of Mill Pond Acres, you understand that the MPACA is a voluntary organization. You maintain membership in MPACA as long as you pay the annual dues of \$10.00 as described in the Mill Pond Acres Civic Association by-laws. You will not be compelled to make a contribution or pay a special assessment that you deem inappropriate.

The Board is interested in your feedback. Attached is a short survey which we are requesting you to complete so we can ascertain your level of interest which will aid in planning our path forward. Please click on or paste the link below in your internet address bar to respond to the survey. Please respond to all of the questions and return by pressing your "reply" button by Monday, March 7, 2011.
